Purwokerto,Jawa Tengah

As an experienced Full Stack Developer, I possess comprehensive skills in web development, combining mastery in both back-end and front-end technologies. My expertise in Laravel enables me to create robust and efficient back-end solutions, while my use of React JS aids in developing dynamic and responsive user interfaces. I have proven abilities in designing attractive and intuitive UI/UX, utilizing TailwindCSS and Bootstrap. Committed to producing clean, efficient, and maintainable code, I continually strive to stay abreast of the latest developments in the web development arena.

Work Experiences

PT Cazh - **Purwokerto,Banyumas**   Nov 2023 - Present
fullstack web developer
a software company in Indonesia that provide mobile pos, corebanking system, membership and payment aggregator
